Biodiversity financing 2014-2020

CPR – Article 8 on sustainable development

- The objectives of the CSF Funds shall be pursued in the framework of sustainable development and (...) protecting and improving the environment, (...) taking into account the polluter pays principle.
- (...) environmental protection requirements, resource efficiency, climate change mitigation and adaptation, disaster resilience and risk prevention and management are promoted in the preparation and implementation of Partnership Contracts and programmes.
- Member State shall provide information on the support for climate change objectives using the methodology adopted by the Commission (...) by means of an implementing act. (...)
- **EP:** Adds "biodiversity and ecosystem protection" and ecosystem based disaster resilience". Information to be provided on support for biodiversity (similar approach as for climate change).

Biodiversity financing 2014-2020

Common Strategic Framework

6. PROTECTING THE ENVIRONMENT AND PROMOTING RESOURCE EFFICIENCY

investment in green infrastructure, including in Natura 2000 sites and other territories to promote the protection and restoration of biodiversity and ecosystem services, climate change mitigation and adaptation, protection against floods and fires, coastal protection, soil protection and other risk prevention measures, decrease the fragmentation of natural areas, increase water availability, and restore heavily modified sites and habitats;

Biodiversity financing 2014-2020

Actions for the EAFRD:

restoring, preserving and enhancing biodiversity, including in NATURA 2000 areas and farming systems with a high nature value, and the state of European landscapes, by promoting: environmentally sound farming systems, including organic farming;

establishing and/or maintaining wildlife zones in farm and/or forest areas;

granting compensation to farmers and/or forest holders for economic disadvantages faced in NATURA 2000 areas and designated wildlife corridors;

payments to farmers who undertake to pursue farming in mountain areas and other areas facing significant natural constraints; reward collective action to deliver environmental public goods.

Biodiversity financing 2014-2020

Actions for the EMFF:

investment in the transition to environmentally sustainable fisheries in line with the CFP objectives of exploiting fish stocks at Maximum Sustainable Yield (MSY) level and eliminating discards;

investment in eco-innovation, such as more selective fishing gear and other innovations reducing the impact of fisheries and aquaculture on the environment;

investment in aquaculture with a high level of environmental protection and provision of environmental services;

financing tools aiming at better compliance with CFP rules, improved fisheries control and improved supply and coverage of scientific data related to the CFP;

supporting the fisheries and aquaculture sector in responding to increased consumer awareness, expectations and interest in products from sustainable sources that are produced in environmentally friendly ways.

Biodiversity financing 2014-2020

4. SUPPORTING THE SHIFT TOWARDS A LOW-CARBON ECONOMY IN ALL SECTORS

Projects aiming at curbing the CO₂ emissions including elements of preventing emissions, improvement of carbon sequestration. (e.g forestry);

5. PROMOTING CLIMATE CHANGE ADAPTATION AND RISK PREVENTION AND MANAGEMENT

Conservation nad restoration of biodiversity and ecosystem services e.g restoring ecosystems' natural capacity to buffer the impacts of climate change (peatlands protection).

3. ENHANCING THE COMPETITIVENESS OF SMES, THE AGRICULTURAL SECTOR (FOR THE EAFRD) AND THE FISHERIES AND AQUACULTURE SECTOR (FOR THE EMFF)

8. PROMOTING EMPLOYMENT AND SUPPORTING LABOUR MOBILITY

Investment in new types of products – bioeconomy, development of sustainable tourism

10. INVESTING IN EDUCATION, SKILLS AND LIFELONG LEARNING

Improvement in children's understanding of sustainable development, business and investment opportunities for adults.
